350 S. Bixel St.

California's government relies on taxes to provide services and make investments in key sectors of our economy. Join us to hear from Senator Robert Hertzberg, chair of the Senate Committee on Government and Finance and former assembly speaker, as he details his tax reform efforts to spur the upward mobility of California residents.

Through legislation such as SB 8, Senator Hertzberg proposes revitalizing education funding, jumpstarting job creation and improving state finances and our business climate through a review of the state's 'boom-and-bust' tax structure.

The Government & Fiscal Affairs Council serves as the Chamber's primary committee to evaluate legislation and policies that affect the broad business community and civic life including taxes, regulations and government reforms. They meet monthly to monitor and act on general business regulatory issues and focus on L.A. City public policy issues.

All Council meetings are open to Chamber members only. Media and guests are only allowed with prior approval.
